“ *Mothers dedicate their lives to caring and providing for their children both physically and emotionally. They always seem to know how to help them to overcome problems and thrive in spite of them. A mother's love is irreplaceable, which makes losing her to death an incredibly painful experience. While sons and daughters of all ages carry within their hearts a dull and lasting ache where they once felt love and security, it is important they continue searching for the happiness their mother always desired for them. Family, continue to be strong. Mom is watching over everyone!*

We love you all,
