“ *Sending heartfelt love and warm memories of Pat. I remember growing up with Pat and seeing her always with a smile and filling a room full of laughter.*

You can always tell when Pat was present in a room, even if you weren't in the room. Her laughter was undeniable, joyful, full with love and that is how I will always remember Pat. May her journey home greet her with a smile. Love always Penny.

“ Pat was my Godmother. I have so many memories and moments to cherish. Sitting in the house with Aunt Tee, Pat collected all the ingredients and showed me how to make my first bundt cake. I had to be around 8 or 9 but we made a beautiful cake. She worked for IBM when i was a child, I recall a few times she took me into work with her, and I used to love accompanying her to visit her friend Charlene in Stevenson Commons. I will never forget one Christmas i wanted an Easy bake oven and she drove all over New Jersey and Upstate New York to every toy store she could think of to get me the oven I wanted. She was sweet and unselfish like that. In my 48 years I never heard her cuss complain or be upset. Never. She has been friends with my mother Nadine since they were about 7 themselves. So she wasnt just a god mother she was also an aunt to me. Checking in on me and my children even in adulthood whether it was a phone call or on social media she always checked in and let me know she was proud of me. Pat has a family here in NYC with the Martins and will always be family to us too. She will always be cherished and remembered. She is with Aunt Tee Aunt Ruby and Uncle Charles now and i can only feel a little bit of comfort that she is no longer in pain. But it hurts to know she is no longer here. Instead of focusing on her passing I am trying my best to focus on her life and the presence her spirit left here with the lives that she touched in her 66 years here on earth. --- Love you dearly Pat no matter how old I am I will always be your little Nef Sleep in Heavenly Peace Godmommy

“ *Pat and I became friends while working together at IBM. She was one of the kindest people I ever knew. We stayed in touch over the years, and I enjoyed our phone calls. I am so sad she is gone. She spoke of her family with great love. My heart goes out to you all.*

“ *Patricia (Pat) worked in the Thomson office with me for several years and even though we were not in same group...she was always willing to assist me when I needed help with a bank- which she probably thought was often. Even after we all begin to work from home, she never failed to help with my request for help. Always with a smile in her voice. She will be greatly missed.*
